LOUISIANA STATE NORMAL COLLEGE

NATCHITOCHES, LOUISIANA

PART I—GENERAL INFORMATION

PURPOSE OF THE COLLEGE

The act of July 7, 1884, establishing the State Normal School of Louisiana, declares that the school shall be maintained "for the benefit of such white persons of either sex as may desire and intend to teach in the public schools of Louisiana." While the purpose of the institution is primarily to train teachers, it is also to provide a general cultural education.

The State Normal College is coeducational, training men and women for intelligent and efficient service in the schools of the State. The presence of both men and women in the student body offers opportunity for the proper development of character, and tends to nurture all social virtues essential in the lives of teachers.

THE SITE

The State Normal College, situated at the south end of the town of Natchitoches and within its corporate limits, occupies an elevated position at the southern extremity of the Natchitoches pine hills. Its elevation affords a view of the beautiful historic country to the east and south, including the alluvial plains bordering Cane River on either side. Its dining halls and dormitories have been erected amidst the woods of a virgin forest, providing the most salubrious conditions. Perfect drainage, freedom from dust, an abundance of the best deep well water, an ample campus, clean grounds, and other sanitary provisions insure good health.

ADMISSION REQUIREMENTS

1. Graduates of secondary schools, public, private, and denominational, approved by the Louisiana State Department of Education, or accredited by the Association of Colleges and Secondary Schools of the Southern States, or other accrediting agency of equal rank, are admitted without examination.

2. Each candidate for admission should send his high school graduation card or other credentials. He will then be informed of his admission and rating.

3. Applicants for admission who are graduates of schools other than approved Louisiana high schools and other recognized secondary schools are admitted by examination. The examination covers the following subjects: English, mathematics, history, science (physical and biological), and one foreign language or home economics.

4. Applicants for admission from other colleges must have a copy of their college records sent in at least two weeks before the beginning of the term in which they wish to enter.

This blank must be sent in by a recognized institution, must be filled out and signed by an authorized person, must be mailed direct to the Registrar, and must not come through the hands of the candidate.

*5. A first grade teachers' certificate, issued prior to 1924, will be accepted for twelve units as follows: English 3 units, advanced arithmetic 1 unit, algebra 1 unit, plane geometry 1 unit, history and civics 2 units, general science 1 unit, biology 1 unit, other subjects not more than 2 units. Teachers may obtain additional admission credits by examination or by certificate from secondary schools, normal schools, or summer schools.

6. Applicants for admission who have done college work in accredited colleges after high school graduation will be given an advanced standing in accordance with the number of hours granted them by the committee on advanced standing for such work.

7. Teachers should be strong men and women, physically, mentally, and morally. Weakness in any of these respects may disqualify applicants for admission.

*Note—To avoid delay in classification, the applicant must present his certificate and record of experience (properly certified by his superintendent) at the time of entrance.

8. Applicants who have been exposed to communicable diseases will not be admitted or re-admitted without a certificate from a reputable physician, stating that danger of communication has disappeared.

UNITS AND CREDITS

1. **TERM HOUR.** The unit of work is the term hour, based on 36 recitation hours a quarter. That is, a course running three times a week for 12 weeks gives a credit of 3 term hours or 1 college hour. All laboratory work is estimated on the basis of two for one.

2. **HIGH SCHOOL UNIT.** A high school unit is understood to represent one hundred eighty recitations of 40 minutes' duration with laboratory work counted half time, or two for one. It constitutes approximately a quarter of a full year's work.

3. **LITERARY SOCIETY CREDITS.** Literary society credits have no term hour values.

4. **ATHLETIC CREDIT.** An athletic credit has the value of one term hour, and represents three one-hour lessons taken weekly during a quarter.

THE SCHOLASTIC YEAR

The scholastic year begins at the opening of the Fall Quarter of each year. It consists of the Fall, Winter and Spring Quarters, of twelve weeks each, and the Summer term of nine weeks. During the entire year recitations are held six days a week. During the Fall, Winter, and Spring Quarters, three term-hour classes meet every other day. During the Summer term such classes meet four times a week.

LAND

Besides the original tract purchased by the town and parish of Natchitoches for the use of the college, additional land has been purchased from time to time to meet the demands of the institution. The college now owns six hundred fifty acres. The campus proper contiguous to this tract occupies about twenty-five acres; the athletic grounds, eight acres; the garden, ten acres; the fields, seventy acres; the pecan grove, twenty-five acres, and the remainder is in open and wood pasture.

BUILDINGS

The buildings consist of three brick buildings for instructional purposes, a frame building for the School of Music, a frame building for the Library and Social Room, a brick building for the Gymnasium-Auditorium in which athletic activities for men are carried on, a brick building for the Women's Gymnasium, a brick building for the Dining Hall, six reenforced concrete dormitories, and a number of dormitories of frame construction.

Other buildings on the campus consist of a home management house, a fire-proof infirmary, a home for the President, a concrete laundry, a concrete power plant, a five-room sorority house, the Newman Club house, the Y.W.C.A. house, and the student center.

On the farm are located a well-equipped dairy barn, a home for the head of the department of agriculture, a home for the foreman of labor on the farm, and several cabins for laborers.

LABORATORIES

Ample laboratory facilities are provided for the necessary laboratory work in agriculture, biology, chemistry, home economics, and physics.

EXPENSES

TUITION—Tuition is free in all departments, except in the School of Music and in Dramatics. All people who take two private music lessons of thirty minutes each a week are charged \$10.00 a quarter. A fee of \$3.00 a quarter is charged for piano rental one hour a day, and \$1.00 an hour additional for each extra hour. A fee of \$10.00 a quarter is charged for one lesson of thirty minutes a week in dramatic expression. Out-of-state students are charged a tuition fee at the rate of \$16.00 a quarter.

STUDENT ACTIVITIES FEE—This fee is \$5.25 a term of twelve weeks and is payable in advance. It is prorated as follows: student welfare, \$1.00; library, \$1.00; athletics, \$1.00; lyceum, 50c; Pot-pourri, 75c; Current Sauce, 50c; student body, 50c.

GUESTS—Club guests are charged one dollar a day. Women students are required to register their guests with the Dean of Women; men students should register their guests with the Matron of the men's dormitory.

INFIRMARY FEE—The infirmary fee, payable at the opening of each term by every club member, is \$1.50. This covers cost of attendance by the graduate nurse, service when sick, and medicine. In case of protracted or serious illness requiring the service of a physician, extra nursing, or prescriptions, the expenses thus incurred are charged to the patient.

TOTAL EXPENSE (Estimate for Quarter)—The necessary expenses for club members are approximately \$90.00 for the first quarter of attendance and \$80.00 thereafter. The expenses for a quarter are estimated as follows:

Living expenses:

Board and Room.....	\$65.00
Laundry.....	6.00
Infirmary Fee.....	1.50

Total.....\$72.50

School expenses:

Student Activities Fee	5.25
Book Rentals (approximate).....	4.00

Total.....\$81.75

DIPLOMA FEE—The diploma fee is \$2.50.

LABORATORY FEES—Courses involving laboratory work require the payment of fees for supplies consumed. These fees range from \$1.00 to \$4.50, and no deduction is made when the attendance covers only a fractional part of a term.

TEXTBOOKS—All textbooks used in the College are on sale at the bookstore, which is located in the basement of Caldwell Hall. Textbooks may be either purchased or rented.

SPECIAL EXAMINATIONS—Experienced teachers and mature students who give satisfactory evidence of adequate preparation, may be permitted to earn credits in subjects by examination under the following conditions, to wit: 1, written permission shall be obtained from the **Dean of Instruction**; 2, a fee of \$5.00 must be paid in advance to the Treasurer of the College.

Permission for taking any examination out of its regular order must be obtained from the **Dean of Instruction**. A fee of \$1.00 must be paid to the Treasurer for such privilege.

COLLEGE REGULATIONS

DROPPING SUBJECTS—Students are not allowed to drop a subject during a term without permission of the **Dean of Instruction**.

EXAMINATIONS—Three days are given to examinations at the end of each quarter. At mid-term one-hour tests are given.

GRADES—Students are graded in their studies on the basis of the quality of work done. Five grades are in use, as follows: A (excellent), B (good), C (average), D (poor), and F (failure). The

grades of each student are entered in the records at the end of each quarter. If students resign at mid-term or after and desire to receive credit for their work at the first half of the term, they should notify their instructors so that their grades may be entered on their classification cards.

"Inc" represents a condition and if not removed within the next three months of residence, it automatically becomes an F.

"Abs" means that a student was absent from the final examination and may take a special examination on permission of the Dean of Instruction during the first quarter following his return. Should the student fail to take the special examination, the grade "Abs" automatically becomes an F.

"W" represents an official withdrawal from the course.

GRADE REPORTS—At the end of the quarter the student's record is sent by mail to his parent or guardian.

QUALITY POINTS—In addition to earning credit hours for courses satisfactorily completed, students earn quality points according to the term grades they make in the courses pursued. The following table is used in computing quality points:

Grade A yields 4 points for each term hour of credit represented.
Grade B yields 3 points for each term hour of credit represented.
Grade C yields 2 points for each term hour of credit represented.
Grade D yields 1 point for each term hour of credit represented.
Grade F yields no points.

MAXIMUM LOAD—Every student is permitted to take as many as sixteen or eighteen term hours of work during his first term in residence. Thereafter the maximum load he may take is determined by the number of quality points earned in the preceding term. For this purpose the following scale is used:

11 hours.....	if under 3 points were earned preceding quarter.
12 hours.....	if 3 to 6 points were earned preceding quarter.
13 hours.....	if 7 to 11 points were earned preceding quarter.
14 hours.....	if 12 to 17 points were earned preceding quarter.
15 hours.....	if 18 to 24 points were earned preceding quarter.
16 hours.....	if 25 to 32 points were earned preceding quarter.
17 hours.....	if 33 to 41 points were earned preceding quarter.
18 hours.....	if 42 to 51 points were earned preceding quarter.
19 hours.....	if 52 to 62 points were earned preceding quarter.
20 hours.....	if 63 to 74 points were earned preceding quarter.
21 hours.....	if over 74 points were earned preceding quarter.

CLASSIFICATION—High school graduates and other applicants of equivalent attainments are classified as first-year, first-term students, designated as 1-1. Students automatically raise their classification at the end of each quarter, in accordance with the schedule below:

TERM HOURS	TERM	CLASS
0— 13	1—1	
14— 26	1—2	Freshman
27— 39	1—3	
40— 56	2—1	
57— 73	2—2	Sophomore
74— 90	2—3	
91—108	3—1	
109—126	3—2	Junior
127—144	3—3	
145—163	4—1	
164—180	4—2	Senior
181—200	4—3	

SUSPENSION FOR POOR WORK—Whenever a student falls below the minimum requirement as indicated in the following scale, he shall be required to withdraw from the College for a period of time prescribed by the President:

Number of terms attended	Number of points required
1.....	0
2.....	15
3.....	35
4.....	60
5.....	85
6.....	110
7.....	135
8.....	160
9.....	185
10.....	210
11.....	235
12.....	260
13.....	290
14.....	320
15.....	360

In the case of students who enter with advanced credits earned in other colleges, the number of points required will be increased in the foregoing scale by sliding the entire point column one term up—that is: 1 term attended, 15 points; 2 terms attended, 35 points, and so on.

HALF CREDITS—Half credits are allowed for satisfactory work done in any subject during the first half of a term, provided the remaining half credits are made during the second half of any term within fifteen months.

CONDITIONAL CREDITS—Credits earned in penmanship and English composition are conditional. That is, students who fail to maintain an acceptable standard of writing or composition in other subjects in later terms may forfeit credits already earned and be compelled to repeat those subjects in class. Students whose records of grade points are below standard either for student teaching or for graduation shall repeat a sufficient number of D subjects to make up for such deficiency.

SUBSTITUTIONS—Because of the inability to schedule certain courses, substitutions are sometimes necessary. All substitutions must be approved and recorded by the Registrar of the College.

PENMANSHIP REQUIRED—All students who cannot show at entrance a skill in writing of 90 on the Ayres scale are required to take penmanship during their first year continuously until such proficiency is attained. This ordinarily requires earning credits in Penmanship 111 and 121. College credits are not granted in these courses.

PHYSICAL EDUCATION REQUIRED—Physical education is required of all students during their first nine terms of attendance, unless excused by the medical head of the department for cause. Each course carries one term hour credit and “point” value.

RESIGNATIONS—In order to resign, the student must first present a written request from his parents or guardian; second, obtain a receipt from the treasurer showing all charges paid; and third, secure the approval of the President. All resignations must be in writing.

EXTRA-CURRICULAR ACTIVITIES LIMITED—All students are encouraged to engage in some form of extra-curricular activity. However, in order to avoid injury to health or neglect of study, each student is expected to confine his activities to the College extra-curricular program set forth below and to refrain from engaging in more than the equivalent of two major activities during any one quarter.

EXTRA-CURRICULAR MAJORS AND MINORS—Two minors are equivalent to one major. Following are lists of major and minor activities to which this rule applies, to wit:

MAJORS

Varsity teams
 Debaters
 Orators
 Literary Society Quartets
 Parliamentarians (leaders)
 Declaimers
 Editors, "Potpourri"
 Business Manager, "Potpourri"
 Editor, "Current Sauce"
 Business Manager, "Current Sauce"
 President, Y. M. C. A.
 Faculty Representative
 President, Y. W. C. A.
 President, Newman Club
 President of Student Council
 President of Purple Jackets
 President of Sororities and Fraternities
 President of Student Body
 President of Freshman Commission
 President of "N" Club
 President and Secretary of Dormitory Council
 President of B. S. U.

MINORS

Membership, Orchestra, Band, Choral Society, or Glee Club
 Assistant in Parliamentary Law
 Assistants, "Current Sauce"
 Assistants, "Potpourri"
 Cabinet Members of Religious Organizations
 President, Secretary, and Treasurer of Literary Societies and Clubs
 Chairman of Program Committee of Literary Societies and Clubs
 Secretary of Fraternities and Sororities
 President, Secretary, and Treasurer of Women's Athletic Association.

HONOR ROLL—To win a place on the honor roll, a student must earn at least three times as many quality points as term hours of credit. Faculty representatives are elected from the honor roll.

DELINQUENCY—Any freshman who has failed to earn at least one point for every term hour of credit work pursued is delinquent. Any sophomore who has failed to earn at least one and one-half points for every term hour of credit work pursued is delinquent. Any junior or senior who has failed to earn at least one and two-thirds points for every term hour of credit work pursued is delinquent.

STUDENT-TEACHING REQUIREMENTS—No delinquent student is permitted to take a course in student teaching. The regularly

prescribed academic courses are prerequisites to the Materials and Methods courses, and the Materials and Methods courses are prerequisites to teaching the respective subjects in the training schools.

A student will not be admitted to student teaching unless he has an average of C or better.

FINES AND PENALTIES

LATE REGISTRATION FEE—All students who fail to register on the regular registration day will be charged an additional fee of \$1.00.

LIBRARY—Nominal fines are imposed on students who violate the rules of the library. Such fines are due and payable on notice. If not paid within two days after notice, the fines are doubled, and the student is deprived of the privilege of using the library until the fines are paid.

PERMITS FOR LEAVE REQUIRED—Students are not allowed to leave school at will. Those who disregard the rules governing resignations are recorded as dismissed from the college, and they forfeit any claims to a refund by the treasurer.

BOARDING FACILITIES

NORMAL CLUB—Under the name of Normal Club, the College conducts a boarding and dormitory department. The President of the College is the president of the club and has general control of its business management and discipline.

The young women of the club are under the direct supervision and control of the Dean of Women. The students of each dormitory are required to observe proper decorum, respect the rights of others, and yield strict obedience to the one in charge.

Six dormitories for women and one for men are in use by the club, affording accommodations for about eight hundred students. Suitable accommodations may be had also in homes in the city of Natchitoches.

Assignments to rooms are made by the Dean of Women, and preference is given to students who are already members of the club. New students are not permitted to select rooms.

All sleeping porches are comfortable and properly equipped with single beds and mattresses. Students provide their own pillows, sheets, blankets, bedspreads, and towels.

Club members are advised to deposit their money with the Treasurer when they pay their living expenses.

Trunks and handbags should have the owner's name and address printed on them. Initials and cards are insufficient.

CLUB RULES—1. At the opening of school, students must come directly to the college and not stay at hotels or with friends and relatives. The young women should report at once to the Dean of Women and the men to the Matron for assignment to rooms.

2. On leaving college for home or place designated in permit, club students must not spend the night in town.

3. Young women students are not permitted to spend the night in the city of Natchitoches except with parents or legal guardians. Young women students boarding in the club are not permitted to attend dances in the city or its immediate environs.

4. Permits for young women to visit home are granted at the discretion of the Dean of Women, with the approval of the President. Application for such permits must be made to the Dean of Women and must be accompanied by a written request from a parent or guardian.

5. Women must not leave the grounds without obtaining permission and reporting to the Dean of Women, both on leaving and returning.

6. Club guests must report to the office of the Dean of Women to make arrangements for accommodations.

7. On Sunday club members are encouraged to attend services at the churches in town.

8. Medicines must not be kept in bedrooms. No narcotics, intoxicants, or poisonous substances are allowed under any circumstances. Remedies for simple ailments incident to school life are kept and dispensed by the nurse. When a student is sick enough to need the attention of a physician, she is taken to the infirmary and placed in charge of the graduate nurse.

9. For minor violations of the club rules, a member may be put under arrest, which means forfeiture of privileges for the time. For any grave violation of rules or of propriety, for continuous neglect of duty, or unbecoming conduct, the penalty is suspension or dismissal.

OFF-CAMPUS—Young women who board in town should secure approval of proposed boarding places before definitely engaging board. Such approval may be secured from Mrs. Ethel L. Hereford, Dean of Off-campus Women, at her office in the Social Hall. All off-campus women must comply with regulations in regard to deportment. These regulations will be furnished by the Dean of Off-campus Women.

THE SOCIAL ROOM—A section of the first floor of the Library Building is equipped for a reception room. This room is home-like, bright, sunny, and well lighted. It is used by the faculty and young women of the boarding department as a reception room for parents, friends, and guests.

THE INFIRMARY—The Infirmary is a department of the Boarding Club and was established for the convenience of the young women of the college. It is open at all times and is in charge of a graduate nurse who receives, registers, and cares for the sick and the indisposed. The nurse is authorized to call in a physician when, in her judgment, the condition of the student warrants it. All students of the Boarding Club not well enough to attend classes are required to report to the nurse and remain in the infirmary until in condition to return to class.

THE HIGH SCHOOL

The high school is domiciled in a three-story brick structure erected in 1921. It is located near the center of Natchitoches and enrolls about 300 students. It offers courses in the commercial, in the general, and in the home economics curriculums as outlined by the State Department of Education of Louisiana. It is a member of the Association of Colleges and Secondary Schools of the Southern States.

Provision is made for senior students of the College to do student teaching in the various subjects offered in order to complete fully the preparation necessary to meet the requirements for certification to teach in the high schools of the State. Each student teacher is required to teach five regular periods each week for two quarters of twelve weeks each, or the equivalent thereof.

THE ELEMENTARY SCHOOL

ORGANIZATION—The elementary training school, located on the campus, consists of the seven grades of the elementary schools of Louisiana. Approximately 600 children from the town and adjacent community are in attendance.

STATE COURSE FOLLOWED—The state course of study is followed. The year is divided into three quarters of three months each. Each grade is divided into A, B, and C sections, and all pupils who meet the standard are passed from one section to the next higher at the end of each quarter.

TEACHERS—Instruction in the training school is given by the supervising teachers and by the student teachers. The work of the latter is closely supervised by the teachers in charge, and is required in order to complete the preparation necessary to meet the requirements for certification to teach in the elementary schools of the State.

THE MUSEUM

The Williamson Museum was established by the State Normal Alumni Association in 1921. It contains approximately 15,000 Indian relics, 2000 rock and mineral specimens, and about 500 fossils. These specimens were donated to the Association by Professor George Williamson in whose honor the museum is named. Professor Williamson has been collecting materials of this nature throughout the period of his useful service to the College.

THE LYCEUM

Lyceum entertainments are offered once or twice during each quarter. A fee of fifty cents, included in the Student Activities Fee, entitles all students to attend these entertainments without further cost.

THE LIBRARY

The collection of books consists of 33,867 volumes. All books and pamphlets of permanent value are classified in accordance with the Dewey System and are rendered accessible by a dictionary catalog which contains author, subject, title, and analytical cards.

The magazine and newspaper racks contain 170 periodicals. The subject matter in these, as well as that in the bound volumes of magazines, is made available for use by the "Readers' Guide to Periodical Literature." The library also serves as a laboratory for students pursuing the English-Library Curriculum.

THE POST OFFICE

The post office occupies its own quarters in the basement at the south end of Caldwell Hall and is a substation of the Natchitoches post office, known as Normal Station. All college mail should be marked "Normal Station." The Normal postmaster is prepared to render practically every service and facility obtainable at the main post office.

DIVISION OF EXTENSION

In order to extend the services of the State Normal College into extra-mural fields, this division has been established. Its purpose is to render the best possible service to teachers, students, school officials, and the public schools of Louisiana. The activities of the Division of Extension include Extension Teaching, Public Service, and Placement Service.

EXTENSION TEACHING

THE PURPOSE—The purpose of this bureau, briefly, is to enable ambitious teachers in service and others desiring to become teachers to avail themselves of the advantages of study through extension courses in academic and professional subjects.

CORRESPONDENCE STUDY—Correspondence study offers unusual opportunities for individual study. It is economical, for a student may carry on his college work by mail while engaged at a full-time salary. The fee for each college hour (three term hours) credit is \$6.00, payable in advance.

EXTENSION CLASSES—Extension classes are intended to serve the same purpose as correspondence study, but in a different manner. This type of extension activity is a combination of class recitation and correspondence study. This work has been planned especially to aid parish superintendents and supervisors in conducting some definite group work or study for teachers in their parishes during the scholastic year.

HOME READING COURSES—Thirty courses, prepared by the Department of the Interior, Office of Education, which make a strong appeal to people having the desire to add to their culture and information, are available through this department. These courses do not carry college credit.

PUBLIC SERVICE

VISUAL INSTRUCTION—In order to promote the use of visual aids in Louisiana, this department has built up a library of films and slides on educational subjects which are available without cost, except for transportation charges and a nominal inspection fee, to schools, churches, and community centers.

LECTURES AND INSTITUTES—The State Normal College has members on the faculty who can render valuable service to parish

superintendents in their annual or monthly institutes. The Division of Extension will welcome opportunities to render this service.

PUBLICITY AND PUBLICATIONS—The purpose of this department is to make known the service which the State Normal College is prepared to render the teachers and schools of Louisiana. Publications of the College are under the direction of the Chief of Publications.

PLACEMENT SERVICE

This bureau has been established since 1912, and is intended to assist parish superintendents and school officials to find suitable teachers, and to aid graduates of the college to find desirable positions as teachers.

All communications should be addressed to the directors of the bureaus through which the respective services are rendered.

RALLIES

The Division of Extension sponsors the Girls' and Boys' Basketball Tournaments, and the High School Rally.

TOURNAMENTS—The Girls' and Boys' Basketball Tournaments for high schools were organized in 1925 and are held annually near the end of February.

RALLY—HIGH SCHOOL—The High School Rally was organized in 1925 and is held annually at the Louisiana State Normal College near the middle of April. The rally is conducted by a joint committee selected from among the high school principals and the College faculty. Contests are held in athletics, music, and literary subjects.

Additional information concerning these activities may be had from the Director of Extension, Louisiana State Normal College, Natchitoches, Louisiana.

MUSIC ORGANIZATIONS

ORCHESTRA—All students in the advanced grades of stringed and other orchestral instruments are entitled to membership. Rehearsals are held twice a week throughout the year. The orchestra offers the experience and routine necessary to become an efficient orchestral player. No fee is attached to membership in the orchestra.

A beginners' orchestra is open to children of the training school and pupils of the high school. The aim of this organization is to

afford experience to beginners and to prepare them for membership in the college orchestra.

THE BAND—The band appears at athletic contests and patriotic occasions. This activity is designed more specifically for college students of other departments than music.

CHORAL SOCIETY—The Choral Society, membership in which is free, is conducted by the music director. Rehearsals are held twice a week. Applicants are required to meet a certain standard of ability to read at sight, and of voice quality. The Choral Society appears on musical programs, in festivals and pageants, and presents one cantata each year.

By special permission those who are exempt from physical education may substitute work in the Choral Society.

TREBLE CLEF CLUB—The Treble Clef Club, membership in which is free, is under the direction of a member of the music faculty. No previous study of music is required for admission. The Club appears on musical programs and on other occasions during the session.

MEN'S GLEE CLUB—The membership in this organization is free. The young men of the College who have the time and who desire to improve their voices are encouraged to join the Men's Glee Club. No previous study of music is required for membership. The Club participates in cantatas and other musical activities of the College, and membership at once becomes a source of profit and pleasure to those participating.

CREDIT—Members of the Band, Choral Society, Orchestra, Men's Glee Club, and Treble Clef Club will be granted a credit of one-half term hour a quarter for each quarter of satisfactory work. Students scheduling these activities will be governed by the college regulation pertaining to extra-curricular activities. However, no student will be permitted to schedule for credit more than one such activity for any one quarter. Attendance at rehearsals will be checked just as in regular classes, and members will conform to the rules of their organization to obtain record of their credit. As an elective to be applied toward graduation, a minimum of three term hours' credit is required.

LITERARY SOCIETIES

The work of the literary societies has been thoroughly organized and plays an important part in the lives of the students. Through

the training offered here, students become familiar with many phases of work. They have opportunity to prepare programs, to become familiar with the art of speaking before an audience, to learn the general rules of parliamentary practice, and to acquire the art of dealing with their fellows.

CLUBS

The several clubs now meet at the same hour as do the regular literary societies.

DRAMATIC CLUB—The Dramatic Club was organized in October, 1923. It has a membership of about thirty students chosen from a much larger group after "trying out" each contestant before a faculty committee. The purpose of the club is to put on plays for the entertainment of the student body and the public at large and to develop that talent in dramatic work which may appear among the students from time to time.

ENGLISH CLUB—The English Club is composed of students whose major interest is English. It promotes scholarship, love of good literature, sound teaching, and study of the speech and literature of Louisiana. It informs prospective teachers of the duties they will have in the first year of employment, and makes a distinct contribution to better teaching of English in the State. The English Club was organized in 1930.

EUTHENICS CLUB—All girls in the Home Economics Department (except freshmen) are eligible to the Euthenics Club, which was organized in November, 1926. Its purpose is to develop a professional spirit in Home Economics and to promote sociability and culture among its members.

LE CERCLE FRANCAIS—Le Cercle Francais is a literary society in which no English is spoken, its object being the preservation and promotion of the French language in Louisiana through the Normal students who go out from this department. All students of French are eligible to membership. The programs are arranged with as much consideration for the student who is hearing French for the first time as for the one whose native language it is. The society has proved a great help in supplementing the work of the French classes, especially in songs with simple melodies, heard everywhere in France. The Cercle is affiliated with the Federation de l' Alliance Francais aux Etats Unis et au Canada. This circle was organized in 1912.

FRESHMAN COMMISSION—The Freshman Religious Organizations Commission was organized in the Spring of 1927. It is composed of fourteen members, elected by religious organizations, as follows: Two from Y.M.C.A., four from Newman Club, eight from the Y.W.C.A., proportionately according to memberships in the various religious organizations. Its purposes are to perform group services in the religious organizations of lower-classmen, and to develop leadership and promote high ideals and strong character in the lives of the individual members.

FORENSIC CLUB—The Forensic Club was organized in 1928. Its purpose is to provide training for its members in the art and skill of debating and to foster intercollegiate forensics. Debates are held annually with Centenary College, Louisiana College, Louisiana Polytechnic Institute, and Southwestern Louisiana Institute. In addition debates with Loyola University of New Orleans and Mississippi State College were held during the 1933-34 session.

The Forensic Club sponsored the first Louisiana Debate Tournament in the history of debating in the state last year. Eighteen teams representing five colleges competed for honors in the tournament. First places in the tournament were won by teams from the State Normal College. The Normal College was selected as the meeting place for the second annual state debate tournament in 1935.

In addition to debating in the Louisiana Tournament, State Normal College debaters entered the Mid-South Debate Tournament at Arkadelphia, Arkansas, and the Savage Forensic Tournament at Durant, Oklahoma, last year. Thirteen debaters participated in a total of sixty-two debates, winning forty of the contests.

The College is represented annually in the State Peace Oratorical Contest for Men and the State Oratorical Contest for Women, held on the last Friday in April. In 1934 Mr. Jack Murphy of Natchitoches won first place and a prize of \$50.00 in the men's contest, and Miss Elise LeBlanc of Paincourtville won second place and a prize of \$25.00 in the women's contest.

Last year the College entered two contestants in the Poetry Contest of the Southern Association of Teachers of Speech at Birmingham, Alabama. Mr. Kier Maddox of Natchitoches tied for first place in the men's contest and Miss Madlyn Kerr of Lecompte was eliminated in the semi-finals of the women's contest.

A credit of 3 term hours in English is given for participation in intercollegiate debate, and a credit of 2 term hours in English is given for participation in intercollegiate oratory.

LATIN CLUB—The Latin Club was organized in 1916 by some enthusiastic members of the department. The purpose of the club

is to study certain phases of Roman life for which time is not found in the classroom. Occasional lectures with the aid of lantern slides are given, showing remains of the Roman classical period. All interested in the study of this period of Roman life and customs are eligible to membership.

"N" CLUB—The "N" Club is an organization composed of all Normal men who have made a letter in any one of the five major sports of the College, namely, football, basketball, baseball, track, and tennis. The purpose of this club is to keep alive that bond of friendship which begins on the field of play and to promote a feeling of comradeship between the men of the past and the men of today. The payment of a small annual fee entitles non-resident members of the club to attend all athletic contests at Normal. This club has so grown since its founding in 1922 that it was given the place of honor by the College at the fall homecoming in 1933.

PURPLE JACKET CLUB—The Purple Jacket Club of the Louisiana State Normal College was organized in 1926. This is an honorary club of women students, the majority of whose members are Juniors and Seniors. The purpose of the club is to unite a group of students of high scholarship, strong personality, and superior leadership due to participation in extra-curricular activities. The organization aims to render cooperative service to the College and to develop in the members stronger characters and nobler ideals.

SCIENCE CLUB—Students who are specializing in mathematics and science in college, or who are especially interested in these subjects, are invited to join the Science Club. Under the direction of the instructors of those subjects an opportunity is afforded for studying the applications of mathematics and the sciences in industry in a manner not possible in the regular courses. The Science Club was organized in 1919.

SOCIEDAD CERVANTES—The Society of Cervantes was organized in 1927. All students of Spanish are eligible to join this club, and Spanish majors are expected to earn two or more credits in it. The programs are given in Spanish but discussions are given in English when the situation warrants it. The programs are usually literary and supplement the classroom work. Spanish songs are learned and stereoptican views are shown. A social meeting is held at the end of the club year, when Spanish refreshments are served.

ASSOCIATIONS

WOMEN'S ATHLETIC ASSOCIATION—The objects of the Women's Athletic Association are to develop sportsmanship and leadership, to furnish a wholesome field of recreation, to encourage the formation of health habits, and to increase the physical efficiency of its members. Any woman in College is eligible for membership. The following sports are fostered by the association: swimming, rowing, dancing, basketball, hockey, volley ball, baseball, golf, and horseback riding. Meets and tournaments are held in the various sports in season. Points are awarded winners and first teams in all events. The eight high-point scorers are awarded "N" sweaters at the end of the year. W.A.A. is a member of the Athletic Conference of American College Women.

STUDENT BODY ASSOCIATION—All regularly enrolled students of the College automatically become members of the Student Body Association. The Association holds meetings at times and places approved by the administration. \$1.75 of the \$5.25 student activities fee is allocated as follows: 50c to Current Sauce, 75c to Potpourri, and 50c to the general activities of the Association. The Association plans ways and means of utilizing these funds to the greatest advantage of all parties concerned. It also constitutes a forum for the expression of opinions on matters pertaining to student activities.

STUDENT COUNCIL—The executive body for the Association is the Student Council. The membership of the Council is composed of the President, the Vice-President, and the Secretary-Treasurer of the Student Body Association, the Editors of Current Sauce and the Potpourri, the Presidents of Newman Club, Y.M.C.A., Y.W.C.A., and the sophomore, junior and senior classes, and three representatives from the Student Body at large. While the Council may initiate policies for the Association, its chief function is that of administering the affairs of the Association after policies have been adopted.

SORORITIES AND FRATERNITIES

ALPHA PHI GAMMA—Students become members in Alpha Phi Gamma, national coeducational honorary journalistic fraternity, by invitation. Students become eligible for membership through holding major positions on the college paper, through holding the position of editor-in-chief or business manager of the college year book, or through having served a minimum of three quarters on the staff of the college paper. The local unit, Iota Chapter, was organized in March, 1926.

ALPHA PSI OMEGA—Membership in the Alpha Psi Omega, national coeducational honorary dramatic fraternity, is selected from regularly enrolled students of the College, who have satisfactory scholarship and who have participated in a major role of one long play or two one-act plays staged by the College, or who have done other work of such merit and quality as to be approved by the director. Delta Eta Cast was organized in January, 1933.

KAPPA DELTA PI—Kappa Delta Pi is a national coeducational honor society in education. Gamma Phi Chapter, organized in May, 1934, selects its membership from both student body and faculty. Juniors and seniors are eligible if they have an average of B or above in their entire college record and are possessed of desirable social, ethical, and personal traits. In addition, juniors must have completed a minimum of nine hours in education and seniors eighteen such hours. Only three members of the faculty may become members during a calendar year.

LAMBDA DELTA LAMBDA—Lambda Delta Lambda is a national coeducational honorary fraternity in which students become members by invitation. Students who major in Chemistry or Physics and who have earned 21 term hours in Chemistry or Physics, or both, are eligible to membership provided their average in one or both of these subjects is $2\frac{1}{2}$ quality points for each term hour. Five term hours of Mathematics may be used as part of the requirement, the average in quality points being stated as above. Eta Chapter was organized May 23, 1931.

PHI ALPHA THETA—Phi Alpha Theta is a national honorary fraternity for students of history. Those eligible are students having earned more than three quality points for each of eighteen trimester hours of history, and at least three quality points per trimester hour in all other work. Pi Chapter was organized in March, 1934.

PHI KAPPA—Students talented in any of the fine arts may become members of Phi Kappa by invitation. Phi Kappa is a Federated Club, both state and national. Its purpose is to promote culture and social life on the campus. The club was organized in 1931.

PI DELTA EPSILON—Pi Delta Epsilon is a local coeducational honorary fraternity for students having high scholastic standing in major courses in biology. Students who are taking their major work in biology, or students who show exceptional ability in biology from the departments of Agriculture and Physical Education are eligible for election to membership provided such students have a general

average of 2 quality points for each hour of work and an average of 2½ quality points for major courses in biology. The fraternity was established in May, 1933.

SOCIAL FRATERNITIES—Other fraternities on the campus which are not coeducational are Lambda Zeta, Phi Kappa Nu, and Sigma Tau Gamma. The last one named is a national fraternity.

NATIONAL SOCIAL EDUCATION SORORITIES—The following national education sororities have local chapters in the College: Alpha Sigma Alpha, Delta Sigma Epsilon, Pi Kappa Sigma, Sigma Sigma Sigma, and Theta Sigma Upsilon.

THE PANHELLENIC—The sororities are governed by a local panhellenic. This association is composed of three representatives from each sorority in the College and a faculty adviser. The objects of this panhellenic association are: 1, to fix the date of bid day; 2, to pass and enforce rush rules; 3, to regulate other matters pertaining to local panhellenic life; and, 4, to encourage all chapters to take an active interest in all college activities for the common good.

RELIGIOUS ORGANIZATIONS

BAPTIST STUDENT UNION—The Baptist Student Union was launched in 1921, and is now found in nearly all Baptist and state-supported colleges and universities as well as many private colleges of the South. It was established on the campus of the Louisiana State Normal College in 1927. Its purpose is to strengthen, correlate, and unify all of the Baptist unit religious organizations (such as Sunday school classes, Baptist Young People's Union, etc.) into one campus organization with one all-inclusive program of religious activity. The governing board is the Baptist Student Council, elected annually by the students who belong to the unit organizations. The local unit sends delegates each year to the state convention and is usually represented at the South-wide meeting and at the Ridgecrest, North Carolina, Conference each summer.

NEWMAN CLUB—The Catholic students of the Louisiana State Normal College in the fall of 1925 installed a chapter of the Newman Club, a national organization of Catholic men and women in non-sectarian schools, having for its purpose the uplifting of the religious life of college students, the creating and fostering of a feeling of fellowship among them, and the relief of the unfortunate. The

Newman Club replaces a similar organization known as the Apostleship of Prayer, organized in 1906, which exerted a wide influence for good among those enrolled in its ranks during the nineteen years of its existence. The leaders of the group, however, decided to become associated with the intercollegiate affiliations.

YOUNG MEN'S CHRISTIAN ASSOCIATION—The Young Men's Christian Association strives to be an active factor in all forms of moral and Christian work properly within the scope of such an organization. All men students are invited to membership.

The association meets regularly every Sunday evening, at which time a helpful program is rendered. During the past year many members of the faculty have given interesting talks to the men, and much good has been derived from the meetings. By giving parties at the appropriate seasons of the year the Y.M.C.A. endeavors, in a measure, to minister to social needs of the students. It endeavors to throw helpful influences around the college student just when he needs a true friend.

In addition to sending delegates to the district and state Y.M.C.A. Convention, the association here is being represented at the summer camp at Blue Ridge, North Carolina, by at least two men each year.

YOUNG WOMEN'S CHRISTIAN ASSOCIATION—The Young Women's Christian Association was organized at the Louisiana State Normal College in 1911. Every year it has grown in numbers and in strength. The reason for its growth is that it meets a real need in the lives of the young women.

The purpose of the Young Women's Christian Association is to deepen the thinking of the students, broaden their sympathies, and widen the reach of their love. It endeavors to promote fellowship among the young women, to bring them into closer relationship with their churches, to encourage service for others; but—most of all—it challenges students to take Christ seriously, to study conditions in the world today, and to apply intelligently the principles of Christ's teachings to actual conditions of life. Projects are carried out in race relations, world fellowship, industry, war, and Bible study. In addition to these projects, the young women hold devotional services every Sunday evening in the auditorium, Morning Watch, a simple prayer service, every morning just before breakfast, and prayer meetings in the dormitories at least once a week. Frequent parties and other social gatherings add joy and zest to the college life.

PUBLICATIONS

CURRENT SAUCE—Every two weeks the student body publishes Current Sauce, a newspaper of four pages devoted to current news and matters of interest to the student body. The policy of this paper is to promote all activities beneficial to the group and to foster such esprit de corps as will unify and elevate a community of growing minds. Students from all departments of the college are invited to contribute to its columns. It constitutes a means of expression and is a disseminator of broadening ideas.

NORMAL NEWS—This is a monthly publication in mimeograph form, issued by the Extension Division. It contains Normal and alumni news.

NORMAL QUARTERLY—As its name implies, this is a publication issued four times a year by the State Normal College. It is published in January, April, July, and October of each year, each volume comprising the publication of a calendar year. The first number was published in January, 1912. The annual catalog is published as the April number of the Normal Quarterly.

POTPOURRI—Potpourri is the student publication of the Louisiana State Normal College. It is issued annually by the student organizations and is a handsomely-bound book of more than two hundred pages, representing all phases of student life at the College. It is ably edited, and besides being for the future teacher a souvenir of school days, it is an incentive to the student to develop those literary and artistic talents which other means of expression have failed to arouse.

CLASS MEMORIALS

The presentation of a class memorial is an established custom at the College. Memorials have been given regularly since the summer of 1913. Some of the classes that have left memorials and their gifts are as follows:

The eight quarterly classes beginning with the summer of 1913 and ending with the spring of 1915, each gave an electrolier. These were erected along the entrance walks. The sixteen classes from the summer of 1915 to the spring of 1919 gave the memorial gate, which was erected in the late fall of 1919.

Recent classes have made memorial gifts as follows: 90-foot flag-staff; lamps for the Social Room; piano bench; davenport; table; Nike

of Samothrace; fish and lily pond with fountain, in front of Caldwell Hall; clock for the Social Room; an electrolier; curtain for the stage in Caldwell Hall; a bust of Lee; a trophy case; memorial steps; a bird bath, and a contribution to the George Williamson Museum.

SCHOLARSHIPS AND LOAN FUNDS

ALBY L. SMITH MEMORIAL LOAN FUND—Under this name the Louisiana State Normal College Alumni Association maintains a fund to aid worthy students in attending the College and qualifying as teachers. The fund now amounts to about \$15,000.

Loans from this fund are limited to students who have completed all but the last three quarters of their courses and have at least a C average in their work. They pledge themselves to repay such loans out of their first year's earnings, and execute notes with acceptable endorsements, bearing 6 per cent interest.

This loan fund is administered by the Secretary-Treasurer of the Louisiana State Normal College Alumni Association.

STUDENT BODY LOAN FUND—The Student Body Loan Fund was organized in the spring of 1928. By resolution of the student body, at that time, the amount left over in the student body fund at the end of each quarter is donated to this loan fund. The fund, thus accumulated, now amounts to about \$5,000. Limited amounts from this fund are loaned to students in school under the same regulations as those governing the Alby L. Smith fund. The administration of the fund is under the direction of the Secretary-Treasurer of the Louisiana State Normal College Alumni Association.

All students in attendance at the College during any quarter when such residue or balance is turned over to the Alumni Association, shall receive a credit of 50c on their life Alumni dues when they come to pay the balance of such dues.

WORKING SCHOLARSHIPS—There are a number of jobs on the campus such as work in the library, bookstore, offices, dairy, dining hall, etc., which require only a limited amount of service each day. This work is distributed among trustworthy students who find it difficult to defray all their expenses. Awards are made as a rule on the basis of high scholastic attainment. For this reason it is necessary for a student to be in attendance at least one quarter to demonstrate his ability to do quality work.

MATTIE O'DANIEL SCHOLARSHIP—A scholarship to the amount of \$7.50 every quarter is awarded by Mrs. M. O'Daniel Rinsland of Norman, Oklahoma, to a senior at the Louisiana State Normal College on the basis of professional ability and attainment.

FEDERATION OF WOMEN'S CLUBS—The Louisiana Federation of Women's Clubs has for some years maintained a loan fund for the benefit of students in the College. From this fund loans are made from time to time, as may be necessary, to the scholarship student. The scholarship consists of the use of the money borrowed without interest charge. The return of the loan begins with the second month of the beneficiary's employment as a teacher, and the amount to be returned monthly is expected to be not less than ten dollars.

HYPATIA MEMORIAL SCHOLARSHIP—The Hypatia Memorial Scholarship is maintained by the Hypatia Club of Shreveport. This scholarship consists of the use of money secured on quarterly loans without interest charge.

UNITED DAUGHTERS OF THE CONFEDERACY—The United Daughters of the Confederacy also supports one or two scholarships at the College.

LODGES AND CITIZENS—Several lodges and benevolent citizens of Louisiana assist students by gifts or loans to meet their school expenses.

PARISH SCHOLARSHIPS—The General Assembly of 1904 authorized by enactment an appropriation by each of the police juries of the State for the maintenance of beneficiary students at the State Normal College. The selection of scholarship students lies wholly with the police jury, and is ordinarily made either by vote of that body or by competitive examination. The annual appropriation for the expenses of scholarship students by the parishes is usually \$250 for an attendance of nine months.

To facilitate the work of parish scholarship committees, the Normal College prepares questions for use at scholarship examinations when so requested by such committees. When applying for this assistance, the committee should state the exact grade of examination to be given.

GRADUATION

KNOWLEDGE AND SKILL REQUIRED—The requirements for graduation are two: satisfactory completion of the course of study and development of an acceptable degree of skill in teaching and control. They are equally indispensable; no amount of scholarship can take the place of teaching power, and no facility in teaching can atone for poor scholarship.

REQUIREMENTS FOR PROFESSIONAL ELEMENTARY CERTIFICATE

1. The successful completion of the first two years of the Upper Elementary or Kindergarten-Primary Curriculum.
2. Six term hours in physical education. (When excused, a like number of academic hours must be substituted.)
3. A minimum residence of one full session or three quarters.
4. A minimum of forty-five term hours of work in residence.
5. The successful completion of penmanship requirements.
6. Two quality points for each term hour of credit.

BACHELOR'S DEGREE—Under the terms of Act 173 of the General Assembly of Louisiana for the year 1918, the State Normal College, by resolution of its Board of Administrators, confers the degree of Bachelor of Arts on all students who complete one of the four-year curriculums. Students receiving the degree are qualified, under the laws of Louisiana and the regulations of the State Board of Education, to teach in the approved high schools of the State.

REQUIREMENTS FOR BACHELOR'S DEGREE

1. The successful completion of the curriculum pursued.
2. Nine term hours in physical education, all due to be taken the first nine terms of attendance, or the substitution of extra academic hours when conditions make a substitution necessary.
3. Two majors, except in specialized curriculums.
4. Three quarters of residence work during the junior and senior years.
5. A minimum of forty-five term hours of work in residence.
6. The successful completion of penmanship requirements.
7. Two quality points for each term hour of credit.

GRADUATION EXERCISES—At the close of the fall, winter, and summer quarters, brief graduation exercises are held, at which time the graduates receive teachers' certificates and are received into the Alumni Association.

COMMENCEMENT EXERCISES—Commencement exercises are held only once a year, at the close of the spring quarter. At these exercises degrees are conferred on all four-year graduates of the preceding twelve months, and teaching certificates are awarded to the graduates of the spring quarter.

HOMECOMING DAY—One of the outstanding features of commencement week is the Alumni Homecoming Day. Graduates and former students of the Louisiana State Normal College are invited to return to their Alma Mater for this occasion. A banquet is held and is usually followed by a brief business meeting of the Alumni Association.

PART II—ACADEMIC INFORMATION

CURRICULUMS

THE CURRICULUMS—The curriculums were organized by a committee working under the direction of the State Board of Education, and the intention was to offer such a variety that a curriculum could be chosen as a whole, and not two majors, as heretofore, around which a curriculum might be built. Thirteen curriculums are offered leading to the degree of bachelor of arts, as follows: Agriculture-Science, Art, Commerce, English-Foreign Language, English-Library, English-Social Science, Home Economics, Kindergarten-Primary, Mathematics-Science, Music, Physical Education, Science, and Upper Elementary. The Kindergarten-Primary and Upper Elementary are designed to train teachers for service in the elementary field. The eleven other curriculums are designed to lead to positions in the high schools.

SELECTING A CURRICULUM—Great care should be exercised by the prospective teacher in selecting a curriculum. Consideration should be given to his personal taste and abilities and also the probable demand for his services when he has received his degree. There are now approximately 2500 teaching positions in the junior and senior high schools of the State. There are also approximately 6600 elementary teaching positions in the State. According to these figures, approximately 70% of the new students entering the College should enroll in the elementary curriculums. The Administration wishes to urge the faculty advisers and new students enrolling in the College to give serious consideration to the selection of the curriculums which will most likely prepare the student teachers for teaching in the fields in which they are destined to teach. Students who pursue one of the four-year elementary curriculums for two years and satisfactorily complete the requirements will receive a Class 3-A Professional Elementary Certificate which is valid for life. He is then prepared to teach in the elementary grades of state approved schools. However, he may continue, or return at a later date, and complete the same curriculum and receive the Bachelor of Arts degree without loss of credit. Through the proper selection of electives during the Junior and Senior years a student will also be prepared to teach two or three subjects in the high schools.

SYSTEM OF NUMBERS FOR COURSES—All courses are numbered with figures having three digits. The hundred digit denotes the college year during which the course should be taken; the ten digit indicates the quarter of the year (first, second, or third) during which the course is offered; and the unit digit distinguishes the several courses offered by a department during a given quarter. However, there are exceptions to this rule. When an exception in a curriculum occurs the course should be taken in accordance with its position in the curriculum, rather than in accordance with its number.

PRE-LAW AND PRE-MEDICAL COURSES—All standard law and medical schools now require two years of college work for admission. Students planning to enter such institutions should ask the Registrar for suggestive programs of study to meet their needs.

CHANGING CURRICULUMS—A student changing from one curriculum to another must meet in full the requirements of the curriculum he adopts. Changes generally mean the loss of some credits and can be made only with the approval of the Curriculum Committee.

SCHEDULING COURSES—All courses should be scheduled in the terms in which they appear in the following curriculums. When, by reason of conflicts or crowded sections, this is impossible, such subjects should be taken in the quarter immediately following.

The topics ordinarily treated in college courses in algebra; at the beginning of the first course considerable attention given to the underlying principles of high school algebra.

133. PLANE TRIGONOMETRY 3 hours

The development and use of the trigonometric functions; relations between the functions; the solution of triangle with application to practical problems. Prerequisite: Math. 113.

134. HOUSEHOLD ARITHMETIC 3 hours

A course designed to give students in the Home Economics Curriculum the mathematics needed for their technical work as well as a general knowledge of arithmetic.

135. BUSINESS MATHEMATICS 3 hours

A course designed to give the basic principles and applications of mathematics in modern business practice.

Prerequisite: Mathematics 213.

216. MATERIAL AND METHODS IN ARITHMETIC IN THE KINDERGARTEN-PRIMARY GRADES 3 hours

The aims of arithmetic; selection and organization of subject matter for the first, second, and third grades; presentation of new topics; the principles of drill; problem solving; standards and measures of accomplishment.

218. MATERIAL AND METHODS IN ARITHMETIC IN THE UPPER ELEMENTARY GRADES 3 hours

The aims of arithmetic; selection and organization of subject matter for the fourth, fifth, sixth, and seventh grades; presentation of new topics; the principles of drill; problem solving; standards and measures of accomplishment.

An adequate knowledge of the subject matter of the arithmetic of the upper elementary grades is required of all students who receive credit in this course.

223, 233. PLANE ANALYTIC GEOMETRY 1, 2 3 hours each

Cartesian coordinates; the equations and the properties of the straight line, the circle, and the conic sections.

Prerequisite: Math. 133.

313, 323, 333. CALCULUS 1, 2, 3 3 hours each

Limits; general formulas for differentiation; application of derivatives to curves; maxima and minima; hyperbolic functions; curvature; indefinite integrals and some of their applications to plane curves; general methods of integration; reduction formulas; plane areas in rectangular and polar coordinates; areas and volumes of solids of revolution.

Prerequisite: Math. 223.

- 413, 423, 434. GEOMETRY 1, 2, 3 3 hours each

Courses designed to strengthen prospective teachers of geometry. 434 required of Math. majors.

425. MATERIAL AND METHODS IN MATHEMATICS 3 hours

A course designed for teachers preparing to teach in high school mathematics. Winter, summer.

Courses for Women—

111, 121, 211, and 231 or 231-C are required courses, and are to be taken in the following order (when possible to schedule): 111 during the first quarter; 121 during the second quarter; 211 during the third quarter; 231 during the fourth quarter, and 231-C during the Junior year.

111. ORIENTATION 1 1 hour
An introduction to all health and physical education activities; motor ability tests; natural exercises emphasizing posture and body mechanics; rhythmic activities including natural rhythms, tap dancing, clogging, folk dancing, etc. Fall quarter.
121. ORIENTATION 2 1 hour
A continuation of Physical Education 111; a greater development of neuromuscular coordination and fundamental skills; stunts, tumbling, etc.; the introduction of skills involved in baseball, volley ball, basket ball, soccer, speed ball, etc. Winter quarter.
133. INDIVIDUAL EXERCISES 1 hour
Systematic exercises prescribed for the benefit of those students who, upon physical examination, show some physical handicap or weakness.
211. SUPERVISED PLAY 1 hour
A study of exercises, games, and play adapted to all grades; actual playing of games; special emphasis on methods of instruction; classification of work according to grade. May not be repeated for credit. Spring and summer quarters.
213. FIELD HOCKEY 1 hour
Instruction and practice in the fundamentals of individual and team play, and the organization of teams and conduct of games. Winter quarter.
221. TENNIS 1 1 hour
A course for beginners. Instruction in the rules of tennis and the mastery of the easier strokes through demonstration and practice. Fall, spring, summer quarters.
223. TENNIS 2 1 hour
An advanced course for those who have demonstrated proficiency in this sport; mastery of the more difficult strokes; the fundamentals of team and match play. Spring quarter.
231. METHODS IN PHYSICAL EDUCATION FOR ELEMENTARY CURRICULUMS 1 hour
Methods involved in the organization and supervision of a program of activities for the grades; games, field and track

sports, gymnastics, rhythms, and organization of field days.

Prerequisites: Phys. Ed. 111 and 211.

May not be repeated for credit.

Fall, winter, summer quarters.

231-C. METHODS IN PHYSICAL EDUCATION FOR SECONDARY SCHOOL CURRICULUMS 1 hour

A course similar in aim and general content to 231, but, being especially adapted to the conduct of girls' activities in secondary schools, it is broadened to include achievement tests, a point system, and health correlations.

Prerequisites: Phys. Ed. 111 and 211.

May not be repeated for credit.

Fall, winter, summer quarters.

311. BASKETBALL 1 1 hour

A course in the fundamentals of the game, and a study of rules for playing it; development of individual and team play. Winter quarter.

313. SWIMMING 1 1 hour

A course for beginners, or "green cap" swimmers, taught in shallow water. It includes the mastery of breath control, the float, the primary strokes, and dives. Fall, spring, summer quarters.

315, 325, 335. DANCING 1, 2, 3 1 hour each

Rhythmic activities on an elementary level; folk dancing in the fall, tap and clog dancing in the winter, and natural dancing in the spring.

321. BASKETBALL 2 1 hour

An advanced course for proficient players. The rules of the game will be closely followed, and methods in organization of teams and rallies, and of officiating will be studied. Winter quarter.

323. SWIMMING 2 1 hour

A "red cap" course for qualified swimmers, taught in deep water; advanced strokes and dives; development of form and speed, ability in which is a basis for credit; annual swimming meet. Fall, spring, summer quarters.

331. TEAM GAMES 1 hour

This is a course in recreative exercise found in the playing of such games as volley ball, indoor baseball, informal basketball, and tenniquoits; special attention given to individual and team play.

333. HIKING 1 hour

Open only in the fall and winter quarters. Students may enroll by special permission of the department.

337. SWIMMING 3 (Red Cross Life Saving) 1 hour

An advanced course especially devoted to mastering methods of Life Saving, and to passing the tests of the American Red Cross.

Passing this test is a requirement for membership in the auxiliary branch of the A. R. C. Women's Life Saving Corps of the Louisiana State Normal College. Spring, summer quarters.

411. SOCCER FOOTBALL 1 hour

Instruction and practice in the fundamentals of individual and team play, the organization of teams, and the conduct of games. Fall quarter.

417. GOLF 1 hour

Fundamentals in golf; playing the game. Students must furnish their own clubs.

421. BOATING 1 hour

The art of handling light water craft; the development of crews; a final regatta. Spring, summer quarters.

Prerequisite: Ability to swim.

427. HORSEBACK RIDING 1 hour

Mastery of the art of graceful riding; skill in handling the mount; riding for pleasure. Every quarter.

Fee, \$4.50.

431. TRACK AND FIELD SPORTS 1 hour

The practice of such rational track and field events as have been generally adopted for girls; methods applicable to rallies and intramural meets. Spring quarter.

Theory Courses. The following courses are regarded as academic courses for Physical Education majors and may not be repeated for a second credit.

135. HISTORY OF PHYSICAL EDUCATION 3 hours

Physical education in Greece and Rome, its relapse in the middle ages, and the increasing emphasis given it in the educational plans of northern Europe and the United States.

215. PRINCIPLES OF PHYSICAL EDUCATION 3 hours

Principles on which physical education is based; the underlying scientific facts beneath activities; a correlation of the physical with other aspects of the development of youth. Not open to freshmen.

225. FIRST AID AND PHYSICAL DIAGNOSIS 3 hours

The development of skill in diagnosing normal physical conditions and in recognizing abnormal conditions, defects, and disorders; appropriate techniques for administering aid in emergencies.

Prerequisite: Biology 213.

317. MEASUREMENTS IN PHYSICAL EDUCATION 3 hours

The theory and practice of testing health and physical activities; designed to give the teacher a means of measuring the effectiveness of her work in this field.

327. PLAYGROUND AND COMMUNITY RECREATION 3 hours

The theory and functions of play; the organization and administration of play activities for the school; the community playground, its lay-out, construction, and equipment.

Prerequisite: Phys. Ed. 215.

339. SCOUTING AND CAMPCRAFT 3 hours

Aims, ideals, standards, and requirements of Campfire and Girls' Scouting; practical work in conducting hikes, camp cooking, and other details of campcraft. Not open to freshmen.

415. THEORY AND PRACTICE OF COACHING 3 hours

A detailed study of the formal team games physical directors are called to teach; interpretation of rules, technique of individual play, and the strategy of the team.

Prerequisite: Phys. Ed. 215.

425. MATERIAL AND METHODS IN PHYSICAL EDUCATION 3 hours

A general course for health and physical education workers designed to supplement the work offered in Physical Education 231 or 231-C; a combination of old Physical Education 319 and 423.

433. ORGANIZATION AND MANAGEMENT 3 hours

A detailed program of health and physical education for high school girls and the administration and supervision thereof; a point system; tournaments; play days.

435. PRACTICE IN OFFICIATING 2 hours

Experience in refereeing; to be taken in connection with Phys. Ed. 415.

437. HOME NURSING 3 hours

Principles in the home care of the sick, with reference to sanitation, diet, and use of home remedies; the child and its home care. For Juniors and Seniors only.

Courses for Men—

112, 212, and 434 are required courses for men for the degree and the certificate. All courses carry term hour credit and "point" value. Membership on a varsity team may be substituted in season for 112.

112. GYMNASTICS 1 1 hour

An elementary course in tactics, light and heavy apparatus, and informal games.

122. GYMNASTICS 2 1 hour

A continuation of the work of 112; more attention to heavy apparatus work, and more advanced light apparatus drills.

212. SUPERVISED PLAY 1 hour

A study and practice of such group and informal team games of the playground as are suitable for boys in the schools of the State from the sixth grade through the high school; physical efficiency tests; mass athletics, readings, and written tests.

222. TENNIS 1 1 hour

A course for novices; instruction in the rules of tennis and simple strokes; enrollment limited.

224. TENNIS 2 1 hour

A course for skilled players; practice in the more difficult strokes; the essentials of team and match play.

226. FIRE DRILLS 1 hour

The use of fire-fighting apparatus, fire extinguishers, and rescue methods; the development and maintenance of an efficient unit for safeguarding life and property at State Normal College.

234. SCOUTING 1 hour

Principles of scout leadership; patrols, and practical scout experience.

312. BASKETBALL 1 1 hour

Vigorous recreative exercise; correct form in the fundamentals of individual play; teams; games.

314. SWIMMING 1 hour

An elementary and intermediate course in the fundamentals of swimming, including the float, different strokes, diving, and simple rescue technique.

Given when conditions in Chaplin's Lake are favorable.

322. BASKETBALL 2 1 hour

An advanced course for the development of the State Normal College teams; the technique of individual play, and principles of team offense and defense; experience in the conduct of interscholastic games and tournaments.

332. TEAM GAMES 1 hour

A course in which the common playground games (basketball, volleyball, and baseball) are played both formally and informally; practice in organizing and conducting these games.

414. FOOTBALL 1 hour

A thorough drill in the fundamentals of football; development of team play and systems of offense and defense; development of a Normal College team, and the playing of intercollegiate games in the fall quarter.

418. GOLF 1 hour

Fundamentals in golf; playing the game. Men must furnish their own clubs.

422. BASEBALL 1 hour

Instruction and practice in batting and base-running, position and team work; intramural match games; informal contests staged with outside opponents.

432. TRACK AND FIELD SPORTS 1 hour

The standard events of track and field; instruction and practice; determination of events for which each candidate is best fitted; the development of a College team; intramural and intercollegiate meets.

434. COACHING HIGH SCHOOL TRACK ATHLETICS 1 hour

The theory and practice of coaching the standard events of track and field; the organization and conduct of meets and rallies; informal meets. Aim: to assist students who intend to coach in the high schools of Louisiana.

PHYSICS

Professor Fournet

Assistant Professor Miller

211. MECHANICS OF SOLIDS AND FLUIDS 5 hours

The mechanics of solids and fluids, including lectures, demonstrations and experimental work; emphasis placed upon the solution of problems; written reports of experiments performed in the laboratory. Prerequisite: Math. 133.

Recitation, 3 hours; laboratory, 4 hours; fee, \$2.00.

221. MAGNETISM, ELECTRICITY, AND HEAT 5 hours

A continuation of course 211, including a study of heat, magnetism, and electricity. Prerequisite: Physics 211.

Recitations, 3 hours; laboratory, 4 hours; fee, \$2.00.

231. SOUND AND LIGHT 5 hours
Sound and light; lectures illustrated with a set of high-grade lantern slides of sound waves; also the measurements of light waves. Prerequisite: Physics 211.
Recitations, 3 hours; laboratory, 4 hours; fee, \$2.00.
312. HOUSEHOLD PHYSICS 3 hours
A study of domestic machinery and household appliances, with emphasis upon first cost and economy of operation; appliances pertaining to heating systems, electrical devices used in the home and school, water supply, illumination, etc.
